## 1 Introduction

Wow cool introduction! Everyone will understand section 2 now.

## 2 Summary

Figure 1: A beautiful black tip reef shark.

Figure 1 shows the beauty of a *black tip reef shark*<sup>1</sup>. Image was taken from the interwebs [1].

### 2.1 More sharks

Table 1: Some different sharks	
Type	Awesomeness (on a scale from 1 to 10)
Black tip reef shark	10
Hammerhead	10
Great white	10
Nurse shark	10

---

<sup>1</sup>All sharks are beautiful

### 3 Maths

$$\omega = \left(\frac{2x^4}{\hbar}\right)^2 \tag{1}$$

We now know that:

- All sharks are:
  1. Awesome
  2. Beautiful
  3. Cool
- Everyone should love sharks

```
\usepackage{verbatim}  
Some code  
print 10**5
```
